# UX Designer Viola Prinz

## Hello !

Innovative Artist turned passionate and creative User Experience Designer. Having a background in arts, for example designing jewelry, brings experience in being steadily creative. Having a heavy user centered approach, with a great passion for user research and usability testing.
Steadily improving skills, also in UI design and Web development.

## Professional Experience

### User Experience Design Certificate

**February 2018 -Current**

- Created two professional prototypes for mobile web applications. This was done by going the whole UX-design way from research, to design, after I this tested the design and iterated again to perfect the product.

- Developing a frontend development project, using the programming languages HTML 5, CSS 3 and JavaScript.

## Education

### User Experience Design Certificate

**February 2018 - Present**

- Intense UX design course with the support from industry leading Mentors and Tutors, while the course was designed by experts from companies like Apple and Amazon. Developed real world projects during the curse, using software like Invision, UX Pin and Balsamiq.

**2009 - 2017**

- Self employed jewellery creator and seller on the market, through this gained steady creativity and great customer service skills.

**2011 - Present**

- Learning yoga and performance from different teachers, for example Mukesh Kumar from the Divina Ma music school. This brought crucial UX Design skills, like presentation skills, self discipline, mental strength and emtional openness.

**2010 - 2013**

- Waitress in a restaurant and for a catering service. Through that got customer service skills and learnd to be resistant to stress.

**Other Projects**

- Doing steadily design practices, for example Daily UI.

- Designing and developing an artists website from scratch.

- Doing aditional courses or reading blogs about UX Design, UI Design, Illustration and Frontend Development, for example FreeCodeCamp.
